Managing Director's Message

Commenting on Q1 FY23 results, Mr. Nikhil Nanda, Managing Director, said :

"I am glad to share that we have tied-up with a leading Italian Company 'Artsana' Group to be their exclusive supplier for manufacturing and supply of oral health care products in India. We have already commenced production and supply of toothpaste for their Brand 'Chicco'. This marks an important step for us as we continue to grow not just in product portfolio but also adding leading companies to our expanding customer base.

During the quarter ended June 30, 2022, our Company registered a revenue of Rs. 21.31 crores. There was a slight drop in revenue as compared to the previous corresponding period, due to decrease in revenues from the toothpaste business. However, this was offset to a large extent by a 63% YoY increase in revenues from our toothbrush business. Infact this quarter, exports contributed to 2% of our revenues.

We are continuously focused on developing new relationships and converting them to be our potential clients. Along with this, we are also cautiously strengthening our bond with existing customers and always endeavour not just to provide best services but also add value added products to our offerings.

I would like to take this opportunity to thank each member of the JHS family. I would also like to thank our Clients, Creditors, Banks, Financial Institutions, and all other Stakeholders. Their faith in us and extended support makes it easier for us to strive and excel."

Journey so far...

Founder & Lead Management's Experienced Profile

Nikhil Nanda

Founder & Managing Director

JHS is led by young, dynamic & self-motivated visionary, **Mr. Nikhil Nanda**. A first-generation entrepreneur, a man of strong judgment and deep insight, whose committed focus and dedicated passion has enabled JHS to emerge as one of the leading Oral-care manufacturers facility in the country.

A postgraduate from one of premier B-schools in India, Fore School of Management. He worked for a year before he pursuing his MBA. Mr. Nanda worked as a summer trainee under MD of Gillette in the year 1996 where he was drawn towards building his own business and not taking up a job during campus placement with Nestle.

Driving forces behind getting into manufacturing of Oral Care space were these thoughts:

In the year – 1997, Mr. Nanda's entrepreneurial journey began with three fundamental principles:

- ✓ Demand for oral care products was directly proportional to India's fast growing population. There was a huge market for expansion due to product's low penetration (49% in 1996). Entry of big brand names in the segment created a high opportunity for growth.
- ✓ Line model of manufacturing and technology creating the multiplier effect.
- ✓ Excise Exemption and SSI reserved product, hence an excellent opportunity for contract manufacturing.

This led to the creation of Svendgaard Labs later merged to form JHS, an Enterprise which initially manufactured toothbrushes followed by many more FMCG products. His strong business acumen and skills saw him bid for manufacturing mandates from various International & National oral care brands

JHS has grown over the years because of Mr. Nanda's sharp skills as well as by adopting the right growth strategy. This led to building its market presence and leadership in Oral Care category

JHS will respond with speed and sensitivity to great Indian consumption boom. We shall be the **brand behind brands**. Strive to be the most visible Indian brand capturing attractive upside of Indian consumption journey for our customers and shareholders
