

INDEPENDENT AUDITORS' REPORT

To,
The Members of
JHS SVENDGAARD MECHANICAL AND WAREHOUSE PRIVATE LIMITED

I. Report on the Audit of the Standalone financial Statements

1. Opinion

- A. We have audited the accompanying Standalone Financial Statements of **JHS SVENDGAARD MECHANICAL AND WAREHOUSE PRIVATE LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statements").
- B. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

3. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

4. Information Other than the Standalone Financial Statements and Auditor's Report Thereon

- A. i) The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the Standalone Financial

Statements and our auditor's report thereon. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon

- B. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

- A. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud occur.
- B. In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

6. Auditor's Responsibilities for the Audit of the Standalone Financial Statements

- A. Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.
- B. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- i) Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- ii) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - v) Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- C. Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.
- D. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- E. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- F. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

II. Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
- A. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - B. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - C. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in

L K Kapoor & Co.
Chartered Accountants

agreement with the relevant books of account;

- D. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
- E. On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
- F. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act;
- G. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i) The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements.
- ii) The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
- iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

2. As required by the Companies (Auditor's Report) Order, 2020("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order.

3. Based on our examination which includes test check performed by us on the Company have used accounting software for maintaining their respective books of account for the financial year ended March, 31st 2024 which has the feature of recording audit trail (edit log) facility and same has been recorded throughout the year and all relevant transactions recorded in the software. Further during the course of audit, we have not come across any instance of audit trail feature being tampered with.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph '2' Under 'Report on Other Legal and Regulatory Requirement' of Auditor's Report.

To the Members of JHS SVENDGAARD MECHANICAL AND WAREHOUSE PRIVATE LIMITED on the accounts for the year ended 31st March, 2024.

- i (a). A. The company has no fixed assets. The company has neither purchased nor capitalized any fixed assets during the year under review and therefore matters specified in the item (i) clause (a) to (e) of paragraph 4 of the said order are not applicable to the company.
B. The company has no intangible assets.
- ii (a). The Company is neither having any inventory nor transacted in inventory and therefore matter specified in item (a), (b) and (c) of the item (ii) of paragraph 4 of the said order is not applicable to the company.
(b). The company has not been sanctioned any working capital limit from banks or financial institutions on the basis of security of current assets at any point of time during the year hence reporting under clause 3(ii)(b) of the Order is not applicable.
- iii According to the information and explanation given to us, the company has not made investments, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured to companies, firms, limited liability partnerships or any other parties hence clause 3(iii)(a) to 3(iii) (f) is not applicable to the company.
- iv According to the information and explanation given to us, the provisions of section 185 and 186 of the Act in respect of loans to directors including entities in which they are interested and in respect of loans and advanced given, investments made and, guarantees and securities given have been complied with by the Company.
- v According to the information and explanation given to us, the company has not accepted any deposits from the public and hence the directives of the RBI and the provisions of section 73 to 76 or any relevant provisions of the Companies Act, 2013 and the Companies (Acceptance of Deposit) Rules, 2015 with regard to the deposits accepted from the public are not applicable.
- vi The company has not commenced any production activities therefore matters specified in under sub-section of (1) of the section 148 of the Companies Act, 2013 towards maintenance of cost record are not applicable to the company.
- vii (a). The company is generally regular in depositing undisputed statutory dues including Goods and Service Tax, provident fund, employees' state insurance, income-tax, *duty of customs* cess and any other statutory dues applicable to the company with the appropriate authorities. The provisions relating to *sales-tax, service tax, duty of excise, value added tax* are not applicable to the company. According to the information and explanations given to us, no undisputed amounts payable in respect of these statutory dues were pending at the end of the year for a period of more than six months from the date they became payable.
(b). According to the information and explanations given to us, there are no dues in respect of income tax or sale tax or service tax or duty of customs or duty of excise or value added tax outstanding on account of any dispute.
- viii There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year. Hence clause 3(viii) of the Order is not applicable to the company.
- ix (a). the Company did not have any loans or borrowings from any lender during the year. Accordingly, clause 3(ix)(a) of the Order is not applicable.
(b). The company has not been is a declared wilful defaulter by any bank or financial institution or government or

government authority.

- (c). The Company has not taken any term loan during the year and there are no unutilised term loans at the beginning of the year hence the reporting under clause 3(ix) c) is not applicable to the company.
- (d). According to the information and explanations given to us and the procedures performed by us, and on an overall examination of the financial statements of the company, no short-term funds have been raised by the company hence this clause not applicable.
- (e). The company does not hold any investment in any subsidiary, associates or joint venture (as defined under the Companies Act 2013) during the year ended March 31, 2024. Hence, clause 3(ix) (e) of the Order is not applicable.
- (f). The company does not hold any investment in any subsidiary, associates or joint venture (as defined under the Companies Act 2013) during the year ended March 31, 2024. Hence, clause 3(ix) (f) of the Order is not applicable.
- x (a). Being a private limited company, it cannot raise money by way of initial public offer or further public offer (including debt instruments) hence the clause 3(x)(a) of the Order is not applicable.
- (b). According to the information and explanations given to us and on the basis of our examination of the records of the company, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year hence the clause 3(x)(b) of the Order is not applicable.
- xi (a). No fraud by the company or no fraud on the Company has been noticed or reported during the year.
- (b). During the year, no report under sub-section (12) of section 143 of the Act has been filed by secretarial auditor or by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c). The establishment of whistle blower mechanism is not applicable to the company hence reporting under clause 3(xi)(c) is not applicable to the company.
- xii The Company is not a Nidhi Company as per the provisions of the Act. Accordingly, the requirement to report on clause 3(xii) of the Order is not applicable to the Company.
- xiii All transactions with the related parties are in compliance with sections 177 and 188 of Companies Act where applicable and the details have been disclosed in the Financial Statements etc., as required by the applicable accounting standards.
- xiv (a). In our opinion and based on our examination, the company does not have an internal audit system commensurate with the size and nature of its business and is not required to have an internal audit system as per the provisions of section 138 of the Companies Act, 2013
- (b). Since the company is not required to have the internal audit system hence the clause 3(xiv)(b) is not applicable to the company.
- xv In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi (a). The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.
- (b). The Company is not engaged in any Non-Banking Financial or Housing Finance activities. Accordingly, the requirement to report on clause 3 (xvi)(b) of the Order is not applicable to the Company.
- (c). The Company is not engaged in any Non-Banking Financial or Housing Finance activities. Accordingly, the requirement to report on clause 3 (xvi)(c) of the Order is not applicable to the Company.
- (d). There is no group company/Core Investment Company. Accordingly, the requirement to report on clause 3(xvi) of the Order is not applicable to the Company.
- xvii The Company has incurred cash losses in the current year and in preceding financial year also.
- xviii There has been no resignation of the statutory auditors during the year and accordingly, requirement to report on

Clause 3(xviii) of the Order is not applicable to the Company.

- xix On the basis of the financial ratios disclosed in notes to the Standalone Financial Statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying Financial Statements, our knowledge of the Board of Directors' and management's plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the fact up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx Since the provisions of Section 135 of the Companies Act, 2013 with regard to corporate social responsibility are not applicable to the company hence clause 3(xx) of the Order is not applicable.
- xxi Since the company is a standalone private company, therefore Clause 3 (xxi) is not applicable to the company.

Background

JHS Svendgaard Mechanical and Warehouse Private Limited ("the Company") is a Subsidiary Company of a Listed Public Company named JHS Svendgaard Laboratories Limited, domiciled in India and incorporated under the provisions of the Companies Act.

Basis of Preparation

a) Compliance with Indian Accounting Standard

The Standalone Ind AS financial statements ("financial statements") of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) and other relevant provisions of the Act.

For all the period upto and including the financial statements of year ended 31 March 2017 were prepared in accordance with the accounting standards notified under the section 133 Companies Act, 2013, read with rule 7 of Companies Accounts Rules, 2014 (as amended) and other relevant provisions of the Act (Previous GAAP).

These financial statements for the year ended 31 March, 2024 are the first financial statements that are prepared in accordance with Ind AS.

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

b) Basis of Measurement

The Financial Statements have been prepared on a historical cost convention on accrual basis, unless otherwise stated.

c) Others

Financial Statements has been prepared on a going concern basis in accordance with the applicable accounting standards prescribed in the Companies (Indian Accounting Standards) Rules, 2015 issued by the Central Government.

d) Current versus Non-Current Classification

The Company presents assets and liabilities in the Financial Statement based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

e) Foreign Currency Translation

Functional and Presentation Currency

Items included in the Financial Statements are measured using the currency of the primary economic environment in which the entity operates i.e. "the functional currency". The Financial Statements are presented in Indian rupee ("INR"), which is Company's functional and presentation currency.

i) Transactions and Balances

Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction. Foreign exchange gains and losses from settlement of these transactions, and from translation of monetary assets and liabilities at the reporting date exchange rates are recognized in the Statement of Profit and Loss. Foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other income/ expenses.

Summary of significant accounting policies

Revenue Recognition

The Company derives revenues primarily from sale of oral care products, cosmetic products and other products.

Effective April 1, 2018, the Company adopted Ind AS 115, Revenue from Contracts with Customers, using the cumulative catch-up transition method, applied to contracts that were

not completed as of April 1, 2018. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted.

The following is a summary of new and / or revised significant accounting policies related to revenue recognition. Refer Note 2a "Significant Accounting Policies," in the Company's 2018 Annual Financials for the policies in effect for revenue prior to April 1, 2018. The effect on adoption of Ind AS 115 was insignificant.

Ind AS 115 "Revenue from Contracts with Customers" provides a control-based revenue recognition model and provides a five step application approach to be followed for revenue recognition.

- Identify the contract(s) with a customer;
- Identify the performance obligations;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations;
- Recognise revenue when or as an entity satisfies performance obligation.

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Sale of goods

For sale of goods, revenue is recognised when control of the goods has transferred at a point in time i.e. when the goods have been dispatched to the location of customer. Following dispatch, the customer has full discretion over the responsibility, manner of distribution, price to sell the goods and bears the risks of obsolescence and loss in relation to the goods. A receivable is recognised by the Company when the goods are dispatched to the customer as this represents

the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due. Payment is due within 45-60 days. The Company considers the effects of variable consideration, non-cash consideration, and consideration payable to the customer (if any).

Variable consideration

If the consideration in a contract includes a variable amount, estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised

will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The Company recognizes changes in the estimated amount of variable consideration in the period in which the change occurs. Some contracts for the sale of goods provide customers with volume rebates and pricing incentives, which give rise to variable consideration.

Rebates are offset against amounts payable by the customer. To estimate the variable consideration for the expected future rebates, the Company applies the most likely amount method for contracts with a single-volume threshold. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract. The Company then applies the requirements on constraining estimates of variable consideration and recognises a refund liability for the expected future rebates.

Contract balances

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (g) Financial instruments – initial recognition and subsequent measurement.

Contract liabilities (which the Company refer to as advance from customer)

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

Cost to obtain a contract

The Company pays sales commission to its selling agents for each contract that they obtain for the Company. The Company has elected to apply the optional practical expedient for costs to obtain a contract which allows the Company to immediately expense sales commissions (included in 'commission on sales' under other expenses) because the amortization period of the asset that the Company otherwise would have used is one year or less.

Costs to fulfil a contract i.e. freight, insurance and other selling expenses are recognized as an expense in the period in which related revenue is recognised.

Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment

by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

Also, refer Note xx for other disclosures.

a) Income Tax

Income tax expense for the year comprises of current tax and deferred tax. Income tax is recognized in the Statement of Profit and Loss except to the extent that it relates to an item which is recognised in other comprehensive income or directly in equity, in which case the tax is recognized in 'Other comprehensive income' or directly in equity, respectively.

The Income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current Tax

Calculation of current tax is based on tax rates applicable for respective years on the basis of tax law enacted and substantively enacted at the end of the reporting period. The Company establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities. Current is payable on taxable profit, which differs from profit and loss in financial statements. Current tax is charged to Statement of Profit and Loss. Provision for current tax is made after taking in to consideration benefits admissible under Income Tax Act, 1961.

Deferred Tax

Deferred income taxes are calculated without discounting using the Balance Sheet method on temporary differences between carrying amounts of assets and liabilities and there tax base using the tax laws that have been enacted or substantively enacted by the reporting date. However deferred tax is not provided on the initial recognition of assets and liabilities unless the related transaction is business combination or affects tax or accounting profit. Tax losses available to the carried forward and other income tax credit available to the entity are assesse for recognition as deferred tax assets.

Deferred tax liabilities are always provided for in full. Deferred tax assets are recognized to the extent that it is probable that they will be able to utilize against future taxable income.

Deferred tax asset are recognised to the extent that is probable that the underlying tax loss or deductible temporary differences will be utilized against future taxable income. This is assessed based on Company's forecast of future operating income at each reporting date.

Deferred tax assets and liabilities are offset where the entity has a right and intention to set off current tax assets and liabilities from the same taxation authority.

Minimum Alternative Tax(MAT)

Minimum alternate tax credit entitlement paid in accordance with tax laws, which gives rise to future economic benefit in form of adjustment to future tax liability, is considered as an asset to the extent management estimate its recovery in future years.

d) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

For arrangements entered into prior to April 1, 2016, the Company has determined whether the arrangement contain lease on the basis of facts and circumstances existing on the date of transition.

Finance Lease

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Contingent rentals are recognized as expenses in the periods in which they are incurred.

Operating Lease

As a lessee

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

b) Impairment of Non-Financial Assets

Assessment for impairment is done at each Balance Sheet date as to whether there is any indication that a non-financial asset may be impaired. Indefinite-life intangibles are subject to a review for impairment annually or more frequently if events or circumstances indicate that it is necessary.

For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or group of assets is considered as a cash generating unit. Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquire are assigned to those units.

If any indication of impairment exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made. Asset/cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognizing the impairment loss as an expense in the Statement of Profit and Loss. The impairment loss is allocated first to reduce the carrying amount of any goodwill (if any) allocated to the cash generating unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Recoverable amount is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognized for an asset in prior accounting periods may no longer exist or may have decreased. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation and amortization, if no impairment loss had been recognized. An impairment loss recognized for goodwill is not reversed in subsequent periods.

c) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to know amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

j) Trade Receivables

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

The Company's trade receivable are generally non interest bearing if paid within the due dates.

l) Inventories

- (i) Raw materials, packaging materials and stores and spare parts are valued at the lower of weighted average cost and net realizable value. Cost includes purchase price, taxes (excluding levies or taxes subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition. However, these items are considered to be realizable at cost if finished products in which they will be used are expected to be sold at or above cost.
- (ii) Work in progress, manufactured finished goods and traded goods are valued at the lower of weighted average cost and net realizable value. Cost of work in progress and manufactured finished goods is determined on the weighted average basis and comprises direct material, cost of conversion and other costs incurred in bringing these inventories to their present location and condition.
- (iii) Excise duty liability, wherever applicable, is included in the valuation of closing inventory of finished goods. Excise duty payable on finished goods is accounted for upon manufacture and transfer of finished goods to the stores. Payment of excise duty is deferred till the clearance of goods from the factory premises.
- (iv) Provision for obsolescence on inventories is made on the basis of management's estimate based on demand and market of the inventories.
- (v) Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.
- (vi) The comparison of cost and net realizable value is made on an item by item basis.

e) Financial Assets

(i) Classification

The Company classifies its financial assets in the following measurement categories.

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost.
- Investment in equity of subsidiaries, joint ventures and associates are accounted and carried at cost less impairment in accordance with Ind AS 27.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in Statement of Profit and Loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Initial Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

(ii) Subsequent Measurement

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognised in Statement of Profit and Loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method. At present no financial assets fulfill this condition.
- **Fair value through profit or loss (FVTPL):** Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in the Statement of Profit and Loss and presented net in the Statement of Profit and Loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

All equity investments in scope of Ind AS 109, are measured at fair value. At Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to the Statement of Profit and Loss, even on sale of investment. Dividends from such investments are recognized in the Statement of Profit and Loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognized in other gain/ (losses) in the Statement of Profit and Loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Investments in subsidiaries

Investments are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

Upon first-time adoption of Ind AS, the Company has elected to measure its investments at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2016.

iv) Impairment of Financial Assets

For all financial assets with contractual cash flows other than trade receivable, ECLs are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of ECLs (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised as an impairment gain or loss in the Statement of Profit and Loss.

v) De recognition of Financial Assets

A financial asset is derecognized only when:

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

f) Financial Liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within the operating cycle of the business. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortized cost using the effective interest method.

Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan.

Borrowings are removed from the Balance Sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in the Statement of Profit and Loss as other gains/(losses).

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in the Statement of Profit and Loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

i) Property plant and equipment

Freehold land is carried at historical cost. Other property, plant and equipment are stated at historical cost of acquisition net of recoverable taxes (wherever applicable), less accumulated depreciation and amortization, if any. Cost comprises the purchase price, any cost attributable to bringing the assets to its working condition for its intended use and initial estimate of costs of dismantling and removing the item and restoring the site if any.

Where cost of a part of the asset is significant to the total cost of the assets and useful lives of the part is different from the remaining asset, then useful life of the part is determined separately and accounted as separate component.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

An asset's carrying amount is written down to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

An item of property, plant and equipment and any significant part initially recognised is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit or Loss when the asset is derecognized.

Transition to Ind AS

The Company has elected to continue with the carrying value for all of its PPE recognized in the financial statements as on April 1, 2016 to Ind AS, measured as per the Previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments as per Ind AS 101, "First-time Adoption of Indian Accounting Standards". Refer note 21 for the first time adoption impact.

ii) Intangible Assets

An intangible asset is recognised when it is probable that the future economic benefits attributable to the asset will flow to the enterprise and where its cost can be reliably measured. Intangible assets are stated at cost of acquisition less accumulated amortization and impairment losses, if any. Cost comprises the purchase price and any cost attributable to bringing the assets to its working condition for its intended use.

Cost of Internally generated asset comprises of all expenditure that can be directly attributed, or allocated on a reasonable and consistent basis, to create, produce and make assets ready for its intended use.

Losses arising from retirement of, and gains or losses on disposals of intangible assets are determined as the difference between net disposal proceeds with carrying amount of assets and recognised as income or expenses in the Statement of Profit and Loss.

Transition to Ind AS

The Company has elected to continue with the carrying value for all of its intangible assets recognized in the financial statements as on April 1, 2016 to Ind AS, measured as per the Previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments as per Ind AS 101, "First-time Adoption of Indian Accounting Standards". Refer note 21 for the first time adoption impact.

iii) Capital Work in progress/ Intangible under development

Capital Work in progress/ Intangible under development represents expenditure incurred in respect of capital projects/ intangible assets under development and are carried at cost. Cost includes related acquisition expenses, development cost, borrowing cost (wherever applicable) and other direct expenditures.

iv) Depreciation and Amortization

Depreciation on fixed assets has been provided on straight line method in accordance with the provisions of Part C of Schedule II of the Companies Act 2013. The Management believes that the estimated useful lives as per the provisions of Schedule II to the Companies Act, 2013, except for moulds and dies, are realistic and reflect fair approximation of the period over which the assets are likely to be used. Based on internal assessment and technical evaluation, the management has assessed useful lives of moulds and dies as five years, which is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Intangible assets comprising of computer software are amortized over a period of five years.

Depreciation and amortization on addition to fixed assets is provided on pro rata basis from the date of assets are ready to use. Depreciation and amortization on sale/deduction from fixed assets is provided for upto the date of sale, deduction, discardment as the case may be.

The residual values, useful lives and methods of depreciation of property, plant and equipment and intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

All assets costing Rs. 5,000 or below are depreciated/ amortized by a one-time depreciation/amortization charge in the year of purchase.

v) Borrowing Costs

Borrowing cost includes interest calculated using the effective interest rate method and amortization of ancillary cost incurred in connection with the arrangement of borrowings. General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

All Other borrowing costs are expensed in the period in which they are incurred.

vi) Provisions and Contingent Liabilities

A Provision is recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of the management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/ independent experts. These are reviewed at each Balance Sheet date and are adjusted to reflect the current management estimate.

q) Employee Benefits :

(i) Short-term obligations

Short term benefits comprises of employee cost such as salaries and bonuses including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

The liabilities are presented as current employee benefit obligations in the Balance Sheet.

ii) Long-term obligations

Gratuity obligations

The Company provides for the retirement benefit in the form of Gratuity. The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss. Remeasurement of gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the Balance Sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Leave encashment

The liabilities for accumulated absents are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Provident Fund

All the employees of the Company are entitled to receive benefits under Provident Fund, which is defined contribution plan. Both the employee and the employer make monthly contributions to the plan at a predetermined rate as per the provisions of The Employees Provident Fund and Miscellaneous Provisions Act, 1952. These contributions are made to the fund administered and managed by the Government of India.

Employee state Insurance

Employees whose wages/salary is within the prescribed limit in accordance with the Employee State Insurance Act, 1948, are covered under this scheme. These contributions are made to the fund administered and managed by the Government of India. The Company's contributions to these schemes are expensed off in the Statement of Profit and Loss. The Company has no further obligations under the plan beyond its monthly contributions.

) Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

) Earnings Per Share

Basic earnings per equity share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity Shares outstanding during the financial year. The weighted average number of equity shares outstanding during the period, are adjusted for events of bonus issued to existing shareholders.

For the purpose calculating diluted earnings per share, the net profit or loss attributable to equity shareholders and the weighted average number of shares outstanding are adjusted for the effects of all dilutive potential equity shares, if any.

) Segment Reporting

In line with the provisions of Ind AS 108 Operating Segments, and on the basis of the review of operations by the Chief Operating Decision Maker(CODM), the operations of the Company fall under Manufacturing of Oral Care products, which is considered to be the only reportable segment.

Measurement of fair values

A number of the accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company has an established control framework with respect to the measurement of fair values. This includes a finance team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

The finance team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, is used to measure fair values, then the finance team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. Further information about the assumptions made in measuring fair values used in preparing these financial statements is included in the respective notes.

v) Assets held for Sale

Non-current assets and disposal groups are classified as held for sale if their carrying amount is intended to be recovered principally through a sale (rather than through continuing use) when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset (or disposal group) and the sale is highly probable and is expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets and disposal groups classified as held for sale are measured at lower of their carrying amount and fair value less costs to sell.

m) Exceptional Items

An item of income or expense which its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Company is treated as an exceptional item and the same is disclosed in the notes to accounts.

Applicable standards issued but not yet effective

Ministry of Corporate Affairs ("MCA"), through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Ind AS - 116

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of profit & loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The Company is evaluating the requirements of IND AS 116 and has not yet determined the impact on the financial statements.

Ind AS – 12 Appendix C, Uncertainty over Income Tax treatments:

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatment which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to Appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, when determining tax profit (tax loss), tax bases, unused tax losses, unused tax credit and tax rates.

The standard permits two possible methods of transition- i) Full retrospective approach- Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 – Accounting Policies, Change in Accounting Estimates and Errors, without using hindsight and ii) retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application without adjusting comparatives.

The Company will adopt the standard on April 1, 2019 and has decided to adjust the cumulative effects in equity on the date of initial application i.e., April 1, 2019 without adjusting comparatives.

The effect of adoption of Ind AS 12 Appendix C would be insignificant in the financial statements.

Amendment to Ind AS 12- Income Taxes

On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, "Income Taxes", in connection with accounting for dividend distribution taxes.

The amendment clarifies that an entity shall recognize the income tax consequences of dividend in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events.

The Company is currently evaluating the effect of this amendment on the financial statements.

Amendment to Ind AS 19- plan amendment, curtailment or settlement

On March 30, 2019, Ministry of Corporate Affairs issued amendments to Ind AS 19, "Employee benefits", in connection with accounting for plan amendments, curtailments and settlements.

The amendment requires an entity

• to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and

• to recognize in profit or loss as a part of past service cost, or a gain or loss on settlement, any reduction in surplus, even if that surplus was not previously recognized because of the impact of the asset ceiling.

The Company does not have any impact on account of this amendment.

Amendment in Ind AS 23 – Borrowing Costs

The amendments clarify that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalisation rate on general borrowings. The Company does not expect any impact from this amendment.
